Weather sunny and bright at National Stables

April 2011

Guaranteed buy-back . . .

Kevin Stone

Minimum Fair market value

National Stables have introduced a “guaranteed buy-back” scheme on their mobile field shelters and mobile stables. This means you can upgrade at any time knowing that you will get a guaranteed return on your original investment!

“We can now offer a fair market value as a trade in, providing the building has been properly maintained. Due to overwhelming demand we are now offering even higher amounts than before!” says Managing Director, Mark Taylor.

The buildings are taken back to the factory and completely refurbished and sold as pre-owned.

Why not join our waiting list for pre-owned mobiles!

Instant shelter when waiting for planning

“Lots of our customers are taking advantage of our buy-back scheme while they are waiting for planning permission for permanent stables. It means our customers can take delivery of a new mobile shelter or mobile stable and when we deliver their new building we remove the mobile and they get a good return” says Edward Scott - sales director.

The benefit of investing in quality

“What a fantastic idea” says Mrs Deacon a National customer, “I have had my National mobile for 3 years and by taking advantage of the ‘buy-back scheme’

I can upgrade to a brand new mobile stable for not a lot extra. The quality of build from National means my mobile is as good as new and they have given me a fantastic price! This time I have gone for a slightly larger one to include a feed store!”

Sales and customer care

“There are a multitude of cheap mobiles on the market but they’re cheap for a reason - they’re not built to last! Our buildings will last over twenty years so we’re more than happy to buy them back when you want a new one.

At any time in the life of your building we can buy it back and you recoup some of your initial investment! Let’s say you invest £500 more to own a National building, then a few years later decide to ‘trade-up’ for a new one - we’d buy it back for say, £1500, so you’d be £1000 ahead - that’s what we call good sense!”

it’s nice to know your investment is secure.

New customers for mobiles join the scheme for FREE!!! If you have an existing mobile you can protect your investment for only £100 call us for details.
